

Yost & Little

Greensboro's Oldest Residential Broker

December 9, 2007

John,

As our industry changes the Internet becomes the major search vehicle for buyers in finding a home. We feel we must be able to be found in the initial few choices of a users search. It is critical when our potential clients are in need of quick information; regardless of if they are buying or selling a home.

Regency Interactive has played an integral part in positioning us at the top of the major search engines, thus increasing our visibility in our online marketing efforts.

Thanks,

Mark S. Yost
Vice President
Yost & Little Realty
