

May 20, 2014

Dear John,

Thank you so much for all of your help with the Hunter's Dance, Inc. website, Facebook, and Twitter. It is so nice to have a professional company working to help us gain more exposure through the internet. Before I met with your company, I was not doing anything to advertise my business online. The consultations with you and your employees helped us launch a great website. Everyone was so helpful and patient in explaining how a website, facebook, and twitter work. I am amazed at how many people have contacted me through facebook and the parents of our dance students love the updates! I am so glad you convinced me to go ahead and do all of those things because I can see that it is going to save me time and is going to get our company name out to so many people. You were always so available to help with changes and everything was done in such a timely manner! I was shocked at how much you did in a short time. Thanks also to Raymond for his help with the website. It is so nice to have someone who knows how to work with the flash site and is able to make changes that look so great! Now that you have encouraged me to do all of these things, I am excited about our new found exposure and the time I am saving! All of our customers are so complimentary about everything you have helped us with. I would highly recommend Regency Interactive to any other friend or business. Regency Interactive does a GREAT job! Thanks for all of your help!

Sincerely,

Hunter Peebles
