

VERMONT INDUSTRIES WROUGHT IRON

2/5/2009

Hello,

We have been working with John for many years now and couldn't be happier with the results from our optimization campaign. The results were much quicker than anticipated which was a great surprise. Getting the monthly reports and being able to speak with John directly goes a long way in the customer service department. The Google Adwords campaign he tailored to our advertising needs saved us thousands a month in pay per click charges. I recommend Regency Interactive to everyone I talk to when it comes to web advertising and e-commerce.
